

# GeoShield

## ArcGIS Pro Add-In

### Force-Multiplier for Advanced Spatial Analysis

Maximize your Esri investment with specialized law enforcement analytics. Query **GeoShield** datasets directly in **ArcGIS Pro** and leverage advanced spatial analysis tools for comprehensive crime analysis and pattern recognition.

#### Features:

- Kernel density maps for crime hotspot analysis
- Link analysis to display relationship between layers
- Temporal visualization with chronological animation
- Choropleth maps for district-level analysis
- Directed patrol area drawing with notes
- Repeat calls analysis at same addresses
- Format and design presentation-quality maps

**GeoShield Helps Build Safer Communities**
