

GeoShield Insight

GeoShield Insight is designed for the Creation, Access, Administration and Distribution of Actionable Intelligence

Insight is the first page users will land on. It is used by agencies to create and disseminate information to field personnel on a real-time basis to support cooperation and coordination. The layout is comprised of up to 8 widgets that can be arranged in multiple rows and customized to the agency's needs.

Features:

- Crime bulletins
- Requests for Information
- News feeds
- Briefing Notes
- Crime Maps / Graphs
- Suspicious Activity Reports
- Policy and Procedure documentation

GeoShield Helps Build Safer Communities
