

GeoShield Mobile

Real-time operational intelligence in the palm of every officer's hand

GeoShield Mobile delivers real-time situational awareness to officers wherever they are. Active calls for service, available units, responding units, and live video streams are all accessible through a secure, CJIS-compliant mobile application.

GeoShield Mobile ensures officers stay connected and informed, even in challenging connectivity environments.

Features:

- Real-Time Intelligence
- Push Notifications
- Interactive Mapping
- Video Streaming
- Offline Capability

GeoShield Helps Build Safer Communities
